Vice President Public Relations 2016-2017  
Secretary 2016-2017**

Toastmasters honors and recognition:

**ACB**

Relevant work experience and how it relates to Toastmasters and your role as a District officer:

**I worked as a Tutor Coordinator at Tarleton State University for a federally funded program. I matched tutors and students, monitoring student progress and planned training sessions for tutors. I feel that the position of Division Director is similar. I would train Area Directors to help develop and support their clubs.**

What experience do you have in strategic planning?

**I was a Curriculum Director for my district as a high school science teacher.**

What experience do you have in the area of finance?

**I worked on the budget for my department in High School and for Trio Project - Student Support Services.**

What experience do you have in developing procedures?

I helped to write the grant and develop the procedures at Trio Projects for the Student Support Services.

What lessons did you learn from previous leadership positions?

I have learned over the years to listen to my tutors and students combined to tweak programs. As Area Director, I think I have learned to help my clubs plug in to more participation in Toastmaster events and tweak their meetings to help members be more successful.

Why do you want to serve as a district officer?

Because I love Toastmasters and want to learn everything about the culture. I want to help others by encouraging them to dive into the Toastmasters culture and be the best they can be. I want to help Toastmasters grow in my division.

In your opinion, what are the district mission's major objectives and how would you work to achieve them?

I think we need more members. Toastmasters helps everyone to become better leaders and having come from public school, we need more leaders. Better clubs draw new members. More members make better meetings. When we get members into the culture, when they are successful, we will grow like a weed!

Additional information about yourself:

I am a retired Physics teacher who currently teaches personal growth and development courses to entrepreneurs and business owners.
